

Remodeling that Pays Off!!!!

Some remodeling projects may make sense for your home
(and some may not).

Windows

Means energy efficiency and an estimated **70% return** on investment for new windows.

Bathroom

Can cost up to \$20,000 for a detailed remodel. However, it will pay for itself with an added **80% return** for a new bathroom.

Deck

Replacement costs can be a few thousand to many thousand dollars. Expected benefit is **80% return** for a new deck.

Kitchen

To maximize your return keep your investment to under 20% of the value of your home. The outcome is a whopping **85% return** on your investment!

If you have any questions on whether your project makes financial sense or not, and to get an idea of what your home is worth in today's market, simply email or call Penny and Team!
